- 1. The disclosure should be carefully reviewed and ensure that any and all grammatical, idiomatic, and spelling or other minor errors are corrected.
- 2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-6 and 8-14 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Bui et al. (U.S. Pat. No. 6,329,831).

With regard to claims 1-6 and 8-14, Bui et al. (i.e., Fig. 2) shows a power supply circuit for a device-under-test comprising all the claimed subject matter.

3. Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 15-17 are allowable over prior art.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Wilstrup et al. (U.S. Pat. No. 5,773,990), Persons (U.S. Pat. No. 5,917,331), Pun et al. (U.S. Pat. No. 6,087,843) and Eldridge et al. (U.S. Pat. No. 6,339,338) also disclose power supply circuits for a device-under-test, each of which comprises substantial elements as recited in the claims of the application.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew V. Nguyen whose telephone number is (703) 305-3415.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-0956.
